TERRAINS AND MAPS

Prologue – Open Training, Nida. Event Centre coordinates: 55.295082, 20.986454.

Part of the map covers the **Golden Dunes**.

Middle-distance course. Most of the course will pass through Nida's **Golden Dunes – open sand dunes**. The remaining part will run through the adjacent pine forest of varying age, featuring gentle slope landforms.

Map samples:

Start 1. The northern part of Juodkrantė town and the adjacent forest area (Event Centre coordinates: 55.543206, 21.122144)

EXTENDED SPRINT. Terrain specifics:

The area combines a town with attractive recreational infrastructure and a forest featuring many varied terrain details.

This will be a modified extended orienteering sprint — I would even call it an exclusive sprint format. After an interesting orienteering section through the urban area, competitors will enter the forest, where the pace of navigation will slow down considerably. After that, the course will return once again to an excellent urban area.

The variation between town and forest will make the race especially interesting, as there is a very significant contrast between these two types of orienteering terrain and navigation.

The Event Centre will be located in a beautiful place by the Curonian Lagoon.

Map authors: Edgaras Voveris and Tatsiana Voveriene, 2026–2027

Map scale: 1:4000, 1:3000

Contour interval: 2.5 m

Winning time: 25–30 min

New and old examples of the future map:

Start 2. Juodkrante (Event Centre coordinates 55.529615, 21.098080)

CLASSIC COURSE. Terrain specifics:

A very beautiful pine forest with a long slope featuring many different terrain forms and details.

Route choice will be important on the longer legs. Competitors will also need to maintain a high level of orienteering concentration while moving along the slope at different elevations.

The Event Centre will be located on the beach by the sea.

Map updated for the competition: 2027

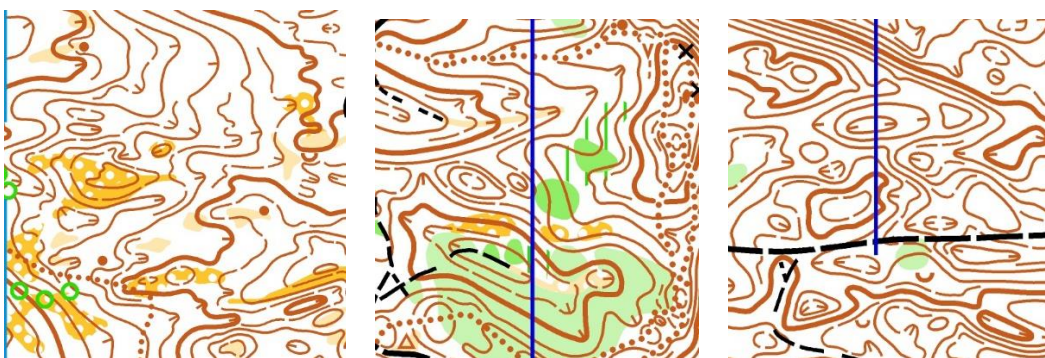

Course setter: E. Voveris

Map scales: 1:10,000 and 1:7,500

Contour interval: 2.5 m

Winning time: 50–60 min

Map samples:

Start 3. Pervalka (Event Centre coordinates: 55.420538, 21.060200)

EXTENDED MIDDLE DISTANCE. Terrain specifics:

The area features several types of sandy dune terrain. There is a steep protective dune zone stretching from the Baltic Sea coast, as well as flatter dune terrain with many small contour details.

Part of the area consists of open pine forest with very good visibility and runnability. Another part has much more limited visibility because of pine trees with low branches, which significantly restrict both sight and direct running.

This is a genuinely technical orienteering area that promises very interesting and high-quality orienteering.

The Event Centre will be located close to the sea.
